

# Digital Touch Screen Kiosks

Strategically positioned in high traffic tourist locations, digital kiosks are a targeted, responsive and economical way to advertise your business. Tourists want to spend more time enjoying their experience rather than looking for it. Quick access to current and relevant information is essential to sales success in highly competitive markets.

## Banner Box Be seen at every customer interaction with the kiosk!

10 second impression every 2 mins. 12 impressions per loop. Ad size: 450 x 250 pixels
